GENERAL NOTES

The first 31 Dump Body Models on Contract W-398-QM-10328 (Registration W-352990 through W-353020) used the same Dump Body Hoist and Power Take-Off Parts as were used on the previous Contract. Accordingly, any parts required to service the Bodies and Parts on Vehicles bearing these Registration Numbers should be selected by referring to Book Symbol ZH, which covers parts for these 31 jobs as well as the previous Contract.

The first type cargo body models (2045 on contract W-398-QM-10328, registration numbers listed below, and 783 on contract DAW-398-QM-8, no registration numbers) used a cab roof panel requiring a back window moulding and weatherstrip. The second type cargo body models use a cab roof panel requiring a weatherstrip and retainer. The following is a list of parts affected by this change. (See group 1804)

Name	1st Type	2nd Type
Glass	599070	3665231
Weatherstrip	599071	3665312
Weatherstrip Retainer	None Required	3665313
Moulding	599069	None Required
Moulding Screw	3661811	None Required
Guard	3651315	3665409
Guard Screw	No. 10 x ½ Metal	3661813
Upper Panel		*
Rear Upper Panel Lining	599041	3665253

*When it is found necessary to replace Upper Panel, complete new installation of later type Panel (No. 3665598) with parts as listed in first column should be used.

All the above with the exception of Registration Number N-352784 were Cargo less Winch (Symbol NJ).
Registration Number N-352784 used on Cargo w/Winch (Symbol NM).
In addition to those built having Registration Numbers there were 783 Cargo w/Winch (Symbol NM) built using this earlier material on Contract DAW 398-QM-8 not having Registration Numbers but bearing Car Serial Numbers 2NM-09-1001 through 2NM-10-1782.
SPECIAL NOTE: Beginning June 1, 1943 jobs 7107, and September 1, 1943 jobs 7117 bodies were not furnished by Chevrolet. Identification plates marked N5-19 or higher than 19 for jobs 7107, and identification plates NM-21 or higher than 21 on jobs 7117 indicate that these jobs were furnished by Chevrolet w/o bodies, and body parts are not serviced by Chevrolet.

					2001.3—BOMB SERVICE WINCH AND PARTS		
					NOTE: There are two types of Holan WINCH assemblies used by the American Coach and Body Co. on NQ model. The first type is marked "TWO-TON HOLAN WINCH" on L.H. frame (component parts show ACB No. 5320 in parts book). The second type is marked "HOLAN—2 TON—MODEL 2" on drive gear (component parts show ACB No. 5330 in parts book).		
					When ordering parts for these two assemblies, it is important to know which assembly is installed on job.

ALPHABETICAL INDEX

Certain classes of parts are not included in this index. Those parts, which are attaching parts and indented under the part attached have been omitted as they can be located by looking up the item attached. For example: To find the attaching parts for a bracket, look up the BRACKET in this index, determine the correct BRACKET you are interested in and turn to the group shown, where the attaching parts will be found listed under the BRACKET.

PART AND DRAWING NUMBER INDEX

This index is prepared in strict numerical sequence, that is, all letters or dashes prefixed, suffixed or interspersed in the numbers are disregarded. For instance, AY-3T-8 is in sequence as 38, but the complete number AY-3T-8, including the manufacturer's symbol as the prefix, is shown in the listing. Further all Ordnance numbers are identified by the prefix "ORD" in this index but not in the body of the book. Ordnance Standard Part Numbers are not included in this index as such parts appear in too many groups to be of value in an index.

STOCK NUMBER INDEX

This index includes three types of stock numbers which are not intermixed, the SNL prefix type, the stock class code (manufacturer's numerical symbol) prefix type and federal stock numbers. These numbers are each arranged numerically by types. H-group SNL stock numbers are not included in this index as such parts appear in too many groups to be of value in an index.
