*Supersedes SIG 7-EE-80, dated 11 August 44*

Section SIG 7 lists the authorized allowance of spare parts and major components for first and second echelon using organizations.

Section SIG 7 normally is divided into two parts, listing in Section A the authorized maintenance parts for first and second echelon organizations and in Section B, the basic issue items for the complete equipment. In this pamphlet the basic issue list, together with the running spares, contains all the items for which spares are provided and hence the usual Section A is not required. The basic issue list contains the parts for a complete operating unit.

Replenishment of organizational stocks will be accomplished by requisition of individual items on the W.D., A.G.O. Form 446, "Property Issue Slip."

**EXPENDABILITY**

Expendability of individual items will be in accordance with latest edition of Signal Supply Catalog SIG 5 which shows expendability of all items stored and issued by the Signal Corps.
